**Stuck in the Shallow End, updated edition** Jane Margolis, 2017-03-03 Why so few African American and Latino/a students study computer science: updated edition of a book that reveals the dynamics of inequality in American schools. The number of African Americans and Latino/as receiving undergraduate and advanced degrees in computer science is disproportionately low. And relatively few African American and Latino/a high school students receive the kind of institutional encouragement, educational opportunities, and preparation needed for them to choose computer science as a field of study and profession. In *Stuck in the Shallow End*, Jane Margolis and coauthors look at the daily experiences of students and teachers in three Los Angeles public high schools: an overcrowded urban high school, a math and science magnet school, and a well-funded school in an affluent neighborhood. They find an insidious “virtual segregation” that maintains inequality. The race gap in computer science, Margolis discovers, is one example of the way students of color are denied a wide range of occupational and educational futures. *Stuck in the Shallow End* is a story of how inequality is reproduced in America—and how students and teachers, given the necessary tools, can change the system. Since the 2008 publication of *Stuck in the Shallow End*, the book has found an eager audience among teachers, school administrators, and academics. This updated edition offers a new preface detailing the progress in making computer science accessible to all, a new postscript, and discussion questions (coauthored by Jane Margolis and Joanna Goode).

*The House That Madigan Built* Ray Long, 2022-03-03 Michael Madigan rose from the Chicago machine to hold unprecedented power as Speaker of the Illinois House of Representatives. In his thirty-six years wielding the gavel, Madigan outlasted governors, passed or blocked legislation at will, and outmaneuvered virtually every attempt to limit his reach. Veteran reporter Ray Long draws on four decades of observing state government to provide the definitive political analysis of Michael Madigan. Secretive, intimidating, shrewd, power-hungry--Madigan mesmerized his admirers and often left his opponents too beaten down to oppose him. Long vividly recreates the battles that defined the Madigan era, from stunning James Thompson with a lightning-strike tax increase, to pressing for a pension overhaul that ultimately failed in the courts, to

steering the House toward the Rod Blagojevich impeachment. Long also shines a light on the machinery that kept the Speaker in power. Head of a patronage army, Madigan ruthlessly used his influence and fundraising prowess to reward loyalists and aid his daughter's electoral fortunes. At the same time, he reshaped bills to guarantee he and his Democratic troops shared in the partisan spoils of his legislative victories. Yet Madigan's position as the state's seemingly invulnerable power broker could not survive scandals among his close associates and the widespread belief that his time as Speaker had finally reached its end. Unsparring and authoritative, *The House That Madigan Built* is the page-turning account of one the most powerful politicians in Illinois history.

*The Trumbull Papers* Jonathan Trumbull, 1902

*Congress and the Nation 2013-2016, Volume XIV* David Hosansky, 2019-10-29 Chronicling the polarized partisan environment during the President Barack Obama's second term, *Congress and the Nation 2013-2016, Vol. XIV* is the most authoritative reference on congressional lawmaking and trends during the 113th and 114th Congresses. The newest edition in this award-winning series documents the most fiercely debated issues during this period, including: The unprecedented federal government shutdown, The strike down of the Defense of Marriage Act as unconstitutional, End of the filibuster for most executive and judicial branch nominees, Changes to the Dodd-Frank Act, Israeli Prime Minister Netanyahu and Pope Francis address joint sessions, Sexual Assault Survivors' Rights Act passed, overhauling rape kit processing and establishment of victim bill of rights, SPACE Act passed, allowing commercial exploration of space. No other source guides readers seamlessly through the policy output of the national legislature with the breadth, depth, and authority of *Congress and the Nation*. This is a landmark series is a must-have reference for all academic libraries and meets the needs of the full spectrum of users, from lower-level undergraduates through researchers and faculty.

*Projects That Matter* Edmund Tsang, 2023-07-03 This book represents the 14th in the Service-Learning in the Disciplines Series and concentrates on how service-learning can be successfully incorporated in engineering programs, a discipline to which is it relatively new. Contributors to the volume are experienced in using service-learning and address issues of concern to engineering educators. As one peer reviewer commented, The audience for this [book] is the engineering education community--that community will expect practical applications of the theory that will lead to improved engineering education.

*A List of the Early Settlers of Georgia* Coulter, Albert B. Saye, 2009-05-01 This list of settlers in Georgia up to 1741 is taken from a manuscript volume of the Earl of Egmont, purchased with twenty other volumes of manuscripts on early Georgia history by the University of Georgia in 1947. The 2,979 settlers are listed in alphabetical order, followed by their age, occupation, date of embarkation, date of arrival, lot in Savannah or in Frederica, and (where applicable) Dead, Quitted, or Run Away. Footnotes give additional information concerning many of the people listed. This volume was published in 1949 to help scholarly research in the history of colonial of Georgia.

**I Refuse for the Devil to Take My Soul** Lili Kobielski, 2018-12-24 This series of photographic portraits and interviews with Cook County Jail inmates as well as jail social workers and psychologists provides a glimpse of life with mental illness behind bars. In late 2015, Lili Kobielski began taking portraits of inmates at the Cook County Jail in Chicago. Working in collaboration with Narratively and the Vera Institute of Justice with support from the John D. and Catherine T. MacArthur Foundation's Safety and Justice Challenge, she began documenting the prevalence of mental illness among inmates at Cook County Jail in an effort to humanize the reality of mass incarceration in this country, often of its most vulnerable citizens. The Cook County Department of Corrections is one of the largest single-site pre-detention facilities in the world, with an average daily population hovering around eight thousand inmates. It is estimated that 35 percent of this population is mentally ill. According to a May 2015 report by the National Alliance on Mental Illness, Illinois cut \$113.7 million in funding for mental health services between 2009 and 2012. As a result, two state-operated inpatient facilities and six City of Chicago mental health clinics have shut down since 2009. Emergency room visits for patients having a psychiatric crisis increased by 19 percent from 2009 to 2012, and a 2013 report by Thresholds found that the increase in ER visits and hospitalizations resulting from the budget cuts cost Illinois \$131 million-almost \$18 million more than the original savings. In addition, Illinois Governor Bruce Rauner's refusal to pass a budget for more than two years has caused more than eighty thousand people in Illinois to lose access to mental health care. Two-thirds of nonprofit mental health care agencies in Illinois have reduced or eliminated programs, and a third of Chicago's mental health organizations have had to reduce the number of people they serve. The Cook County Sheriff's Office estimates that it costs \$143 per day to house a general population inmate. But when taking into account the treatment, medication, and security required to incarcerate a mentally ill person, the daily cost doubles or even triples-yet now more patients than ever are being treated in jail rather than at a mental health facility. Cook County Jail has become one of the largest, if not the largest, mental health care provider in the United States.

*Dark Money and the Politics of School Privatization* Maurice T. Cunningham, 2021-10-08 This book goes deep behind the scenes of school privatization campaigns to expose the complex networks of funding that sustain these efforts - often hidden from the view of the public. Using the example of a 2016 Massachusetts charter school referendum, Cunningham shows how wealthy individuals support charter school expansion through so-called "social welfare" organizations, thereby obscuring the true sources of funding while influencing major public policy votes. With vast wealth and a political agenda, foundations have helped to reshape the reform landscape in urban education.

**Issues in Global Business** SAGE Publishing, 2021-03-03 In 2020, COVID-19 starkly demonstrated the global interconnectedness of business, as it disrupted supply chains and manufacturing operations, broadly shuttered retail stores,

and led to restrictions on movement and travel around the world. Other events in 2019 also showcased the undeniable globalization of business, be it from the (un)expected ramifications of Brexit to the impacts of data breaches across various industries. Riots in Hong Kong over an extradition bill also sparked huge debate and controversy, and the U.S.-China trade war also caused concern. All of these events may have largely and immediately impacted one region, yet effects reverberate across larger swathes of the globe—ultimately affecting vast areas, industries, and sectors across the international landscape. Issues in Global Business explores all of these and more, across a wide range of topics, including the on-demand economy, global manufacturing, Bitcoin, data security, and many more. Coupled with a comprehensive overview of the business landscape around the world by Dr. Mamoun Benmamoun, an assistant professor at the Boeing Institute of International Business at Saint Louis University, this book provides students with the essential information they need to assess business practices through an international lens.

Still Standing Governor Larry Hogan, Ellis Henican, 2020-07-28 Still Standing reveals how an unlikely governor is sparking a whole new kind of politics—and introduces the exciting possibilities that lie ahead. As the rookie Republican governor of deep-blue Maryland, Larry Hogan had already beaten some daunting odds. A common-sense businessman with a down-to-earth style, he had won a long-shot election the Washington Post called a stunning upset. He'd worked with cops and neighborhood leaders to quell Baltimore's worst rioting in 47 years. He'd stared down entrenched political bosses to save his state from fiscal catastrophe, winning praise from Democrats, Republicans and independents. But none of that prepared him for the life-threatening challenge he would have to face next: a highly aggressive form of late-stage cancer. Could America's most popular governor beat the odds again? The people of Maryland, with their Hogan Strong wristbands, were certainly

pulling for him, sending him back to the governor's office in a landslide. As Governor Hogan began his second term cancer-free, his next challenge went far beyond Maryland: bringing our divided country together for a better future. And in 2020, as the COVID-19 pandemic changed that future forever, Hogan was once again called to rely upon his bold, open-minded approach to problem-solving to lead and serve in a time of unprecedented turmoil. In his own words and unique, plain-spoken style, Larry Hogan tells the feel-good story of a fresh American leader being touted as the anti-Trump Republican. A lifelong uniter at a time of sharp divisions. A politician with practical solutions that take the best from all sides. An open-hearted man who has learned important lessons from his own struggles in life. As we face a future full of questions, Hogan offers some surprising answers. Still Standing is a timely reminder that perseverance in the face of unexpected obstacles is at the heart of the American spirit.

U.S. Immigration Policy Council on Foreign Relations. Independent Task Force on U.S. Immigration Policy, Jeb Bush, Thomas F. McLarty, Edward H. Alden, 2009 Few issues on the American political agenda are more complex or divisive than immigration. There is no shortage of problems with current policies and practices, from the difficulties and delays that confront many legal immigrants to the large number of illegal immigrants living in the country. Moreover, few issues touch as many areas of U.S. domestic life and foreign policy. Immigration is a matter of homeland security and international competitiveness, as well as a deeply human issue central to the lives of millions of individuals and families. It cuts to the heart of questions of citizenship and American identity and plays a large role in shaping both America's reality and its image in the world. Immigration's emergence as a foreign policy issue coincides with the increasing reach of globalization. Not only must countries today compete to attract and retain talented people from around the world, but the view of the United States as a place of unparalleled openness and opportunity is also crucial to the maintenance of American leadership. There is a consensus that current policy is not serving the United States well on any of these fronts. Yet agreement on reform has proved elusive. The goal of the Independent Task Force on U.S. Immigration Policy was to examine this complex issue and craft a nuanced strategy for reforming immigration policies and practices.

*Reforming Juvenile Justice* National Research Council, Division of Behavioral and Social Sciences and Education, Committee on Law and Justice, Committee on Assessing Juvenile Justice Reform, 2013-05-22 Adolescence is a distinct, yet transient, period of development between childhood and adulthood characterized by increased experimentation and risk-taking, a tendency to discount long-term consequences, and heightened sensitivity to peers and other social influences. A key function of adolescence is developing an integrated sense of self, including individualization, separation from parents, and personal identity. Experimentation and novelty-seeking behavior, such as alcohol and drug use, unsafe sex, and reckless driving, are thought to serve a number of adaptive functions despite their risks. Research indicates that for most youth, the period of risky experimentation does not extend beyond adolescence, ceasing as identity becomes settled with

maturity. Much adolescent involvement in criminal activity is part of the normal developmental process of identity formation and most adolescents will mature out of these tendencies. Evidence of significant changes in brain structure and function during adolescence strongly suggests that these cognitive tendencies characteristic of adolescents are associated with biological immaturity of the brain and with an imbalance among developing brain systems. This imbalance model implies dual systems: one involved in cognitive and behavioral control and one involved in socio-emotional processes. Accordingly adolescents lack mature capacity for self-regulations because the brain system that influences pleasure-seeking and emotional reactivity develops more rapidly than the brain system that supports self-control. This knowledge of adolescent development has underscored important differences between adults and adolescents with direct bearing on the design and operation of the justice system, raising doubts about the core assumptions driving the criminalization of juvenile justice policy in the late decades of the 20th century. It was in this context that the Office of Juvenile Justice and Delinquency Prevention (OJJDP) asked the National Research Council to convene a committee to conduct a study of juvenile justice reform. The goal of Reforming Juvenile Justice: A Developmental Approach was to review recent advances in behavioral and neuroscience research and draw out the implications of this knowledge for juvenile justice reform, to assess the new generation of reform activities occurring in the United States, and to assess the performance of OJJDP in carrying out its statutory mission as well as its potential role in supporting scientifically based reform efforts.
