*Rich States, Poor States* Arthur B. Laffer, Stephen Moore, Jonathan P. Williams, Utah. Governor (2005-2009 : Huntsman), American Legislative Exchange Council, 2009-03

The Cambridge Handbook of U.S. Labor Law for the Twenty-First Century Richard Bales, Charlotte Garden, 2019-12-05  
Over the last fifty years in the United States, unions have been in deep decline, while income and wealth inequality have grown. In this timely work, editors Richard Bales and Charlotte Garden - with a roster of thirty-five leading labor scholars - analyze these trends and show how they are linked. Designed to appeal to those being introduced to the field as well as experts seeking new insights, this book demonstrates how federal labor law is failing today's workers and disempowering unions; how union jobs pay better than nonunion jobs and help to increase the wages of even nonunion workers; and how, when union jobs vanish, the wage premium also vanishes. At the same time, the book offers a range of solutions, from the radical, such as a complete overhaul of federal labor law, to the incremental, including reforms that could be undertaken by federal agencies on their own.

**The House That Madigan Built** Ray Long, 2022-03-03 Michael Madigan rose from the Chicago machine to hold unprecedented power as Speaker of the Illinois House of Representatives. In his thirty-six years wielding the gavel, Madigan outlasted governors, passed or blocked legislation at will, and outmaneuvered virtually every attempt to limit his reach. Veteran reporter Ray Long draws on four decades of observing state government to provide the definitive political analysis of Michael Madigan. Secretive, intimidating, shrewd, power-hungry--Madigan mesmerized his admirers and often left his opponents too beaten down to oppose him. Long vividly recreates the battles that defined the Madigan era, from stunning James Thompson with a lightning-strike tax increase, to pressing for a pension overhaul that ultimately failed in the courts, to steering the House toward the Rod Blagojevich impeachment. Long also shines a light on the machinery that kept the Speaker in power. Head of a patronage army, Madigan ruthlessly used his influence and fundraising prowess to reward loyalists and aid his daughter's electoral fortunes. At the same time, he reshaped bills to guarantee he and his Democratic troops shared in the partisan spoils of his legislative victories. Yet Madigan's position as the state's seemingly invulnerable

power broker could not survive scandals among his close associates and the widespread belief that his time as Speaker had finally reached its end. Unsparing and authoritative, *The House That Madigan Built* is the page-turning account of one the most powerful politicians in Illinois history.

**Making Globalization Work** Joseph E. Stiglitz, 2007-09-17 A damning denunciation of things as they are, and a platform for how we can do better.—Andrew Leonard, Salon Building on the international bestseller *Globalization and Its Discontents*, Joseph E. Stiglitz offers here an agenda of inventive solutions to our most pressing economic, social, and environmental challenges, with each proposal guided by the fundamental insight that economic globalization continues to outpace both the political structures and the moral sensitivity required to ensure a just and sustainable world. As economic interdependence continues to gather the peoples of the world into a single community, it brings with it the need to think and act globally. This trenchant, intellectually powerful, and inspiring book is an invaluable step in that process.

*Congress and the Nation 2013-2016, Volume XIV* David Hosansky, 2019-10-29 Chronicling the polarized partisan environment during the President Barack Obama's second term, *Congress and the Nation 2013-2016, Vol. XIV* is the most authoritative reference on congressional lawmaking and trends during the 113th and 114th Congresses. The newest edition in this award-winning series documents the most fiercely debated issues during this period, including: The unprecedented federal government shutdown, The strike down of the Defense of Marriage Act as unconstitutional, End of the filibuster for most executive and judicial branch nominees, Changes to the Dodd-Frank Act, Israeli Prime Minister Netanyahu and Pope Francis address joint sessions, Sexual Assault Survivors' Rights Act passed, overhauling rape kit processing and establishment of victim bill of rights, SPACE Act passed, allowing commercial exploration of space. No other source guides readers seamlessly through the policy output of the national legislature with the breadth, depth, and authority of *Congress and the Nation*. This is a landmark series is a must-have reference for all academic libraries and meets the needs of the full spectrum of users, from lower-level undergraduates through researchers and faculty.

**Collective Bargaining Provisions** Abraham Weiss, 1948

**Shaping the University of the Future** Stephen James Marshall, 2018-01-02 This book focuses on developing an understanding of the complex interplay of forces acting on individual universities and higher education systems to enable leaders and practitioners to take purposeful and strategic action. It explores the challenging landscape of higher education and the pressures that are reshaping the university as a societal institution, describing the complex interplay of technological, sociological, political and economic forces driving change. The issues analysed are global in scope, reflecting the diversity of contexts, but also the common nature of the challenges facing institutions individually and collectively. The analysis draws on the lessons learnt and evidence from over fifty organisational case studies undertaken by the author over the past decade, exploring organisational change in higher education institutions in New Zealand, Australia, the United

States and the United Kingdom, and on his engagement as president of the ACODE organisation with colleagues responsible for learning technological change in Australasia. The book helps institutions respond to technological change purposefully, in ways that build upon a clear understanding of the complex nature of the existing institution, its students and the organisational context.

*U.S. Immigration Policy Council on Foreign Relations. Independent Task Force on U.S. Immigration Policy, Jeb Bush, Thomas F. McLarty, Edward H. Alden, 2009* Few issues on the American political agenda are more complex or divisive than immigration. There is no shortage of problems with current policies and practices, from the difficulties and delays that confront many legal immigrants to the large number of illegal immigrants living in the country. Moreover, few issues touch as many areas of U.S. domestic life and foreign policy. Immigration is a matter of homeland security and international competitiveness, as well as a deeply human issue central to the lives of millions of individuals and families. It cuts to the heart of questions of citizenship and American identity and plays a large role in shaping both America's reality and its image in the world. Immigration's emergence as a foreign policy issue coincides with the increasing reach of globalization. Not only must countries today compete to attract and retain talented people from around the world, but the view of the United States as a place of unparalleled openness and opportunity is also crucial to the maintenance of American leadership. There is a consensus that current policy is not serving the United States well on any of these fronts. Yet agreement on reform has proved elusive. The goal of the Independent Task Force on U.S. Immigration Policy was to examine this complex issue and craft a nuanced strategy for reforming immigration policies and practices.

Encyclopedic Liberty Denis Diderot, Jean Le Rond d' Alembert, 2016 This anthology of 81 articles is the first attempt to translate and collect the most significant political writing from the Encyclopédie (1751-1765). It includes every aspect of the ideas, practices, and institutions of Western political life.

**Youth-Led Community Organizing** Melvin Delgado, Lee Staples, 2008 Youth-led organizing is increasingly receiving attention from scholars, activists, and the media. Delgado and Staples have produced the first comprehensive study of this dynamic field. Their well-organized book takes an important step toward bridging the gap between academic knowledge and community practice in this growing area.

**Periods Gone Public** Jennifer Weiss-Wolf, 2017-10-10 The first book to explore menstruation in the current cultural and political landscape and to investigate the new wave of period activism taking the world by storm. After centuries of being shrouded in taboo and superstition, periods have gone mainstream. Seemingly overnight, a new, high-profile movement has emerged—one dedicated to bold activism, creative product innovation, and smart policy advocacy—to address the centrality of menstruation in relation to core issues of gender equality and equity. In *Periods Gone Public*, Jennifer Weiss-Wolf—the woman *Bustle* dubbed one of the nation's “badass menstrual activists”—explores why periods have become a prominent political cause. From eliminating the tampon tax, to enacting new laws ensuring access to affordable, safe products, menstruation is no longer something to whisper about. Weiss-Wolf shares her firsthand account in the fight for “period equity” and introduces readers to the leaders, pioneers, and everyday people who are making change happen. From societal attitudes of periods throughout history—in the United States and around the world—to grassroots activism and product innovation, Weiss-Wolf challenges readers to face stigma head-on and elevate an agenda that recognizes both the power—and the absolute normalcy—of menstruation.

**Freedom in the 50 States** William Ruger, Jason Sorens, 2016 This study ranks the American states according to how their public policies affect individual freedoms in the economic, social, and personal spheres. Updating, expanding, and improving upon the three previous editions of *Freedom in the 50 States*, the 2016 edition examines state and local government intervention across a wide range of policy categories -- from tax burdens to court systems, from eminent domain laws to occupational licensing, and from homeschooling regulation to drug policy. *Freedom in the 50 States* remains the only

index that measures both economic and personal freedoms.

*Finding Roger* Rick Elice, 2017-10-03 Rick Elice, author of *Jersey Boys*, *Addams Family*, and *Peter and the Starcatcher* for Broadway, has penned a heartbreaking memoir of his 34 years with the inimitable Roger Rees. Some may recognize Roger as Nicholas Nickleby and others will know him as Kirstie Alley's boyfriend on *Cheers*. When he died of brain cancer in 2015, Broadway dimmed all the lights in his honor -- a true stage legend. Pulled straight from Rick's enormous and broken heart, *Finding Roger* will touch everyone who reads it. It's a story of profound loss -- but also a love story for the ages.

Oil Wealth and Development in Uganda and Beyond Arnim Langer, Ukoha Ukiwo, Pamela Mbabazi, 2020-01-07

Multidisciplinary perspectives to governance of oil in African countries Large quantities of oil were discovered in the Albertine Rift Valley in Western Uganda in 2006. The sound management of these oil resources and revenues is undoubtedly one of the key public policy challenges for Uganda as it is for other African countries with large oil and/or gas endowments. With oil expected to start flowing in 2021, the current book analyses how this East African country is preparing for the challenge of effectively, efficiently, and transparently managing its oil sector and resources. Adopting a multidisciplinary, comprehensive, and comparative approach, the book identifies a broad scope of issues that need to be addressed in order for Uganda to realise the full potential of its oil wealth for national economic transformation. Predominantly grounded in local scholarship and including chapters drawing on the experiences of Nigeria, Ghana, and Kenya, the book blazes a trail on governance of African oil in an era of emerging producers. *Oil Wealth and Development in Uganda and Beyond* will be of great interest to social scientists and economic and social policy makers in oil-producing countries. It is suitable for course adoption across such disciplines as International/Global Affairs, Political Economy, Geography, Environmental Studies, Economics, Energy Studies, Development, Politics, Peace, Security and African Studies. Contributors: Badru Bukenya (Makerere University), Moses Isabirye (Busitema University), Wilson Bahati Kazi (Uganda Revenue Authority), Corti Paul Lakuma (Economic Policy Research Centre), Joseph Mawejje (Economic Policy Research Centre), Pamela Mbabazi (Uganda National Planning Authority), Martin Muhangi (independent researcher), Roberts Muriisa (Mbarara University of Science and Technology), Chris Byaruhanga Musiime (independent researcher), Germano Mwabu (University of Nairobi), Jackson A. **Work-based Learning as a Pathway to Competence-based Education** Anke Bahl, Agnes Dietzen, 2019

**Higher Education in Saudi Arabia** Larry Smith, Abdulrahman Abouammoh, 2013-03-14 This book provides the first academically rigorous description and critical analysis of the Higher Education system in the Kingdom of Saudi Arabia, and

of the vision, strategies and policy imperatives for the future development of Saudi universities. The government of Saudi Arabia has recognized in both policy and practice the necessity of developing its university system to world-class standard. Significantly increasing access and participation in Higher Education across a range of traditional and non-traditional disciplines is directly relevant to the future social and economic growth of the country. This book addresses the way in which Saudi Arabia is moving to develop a quality university system that balances the need for students to gain the knowledge, skills and 'ways of doing' necessary to operate effectively on the world stage while simultaneously maintaining and demonstrating the fundamental values of the Islamic religion and culture. The book provides a description and critical analysis of the key components of the Saudi Higher Education system, and of system-level responses to the challenges and opportunities facing Saudi universities. It is written by a team of Saudi academics and authors of international standing from non-Saudi universities so as to provide both internal and external perspectives on all issues and to place information and ideas in the context of the international Higher Education scene.

**Alternative Sentencing in the Federal Criminal Justice System** Courtney Semisch, Increasingly, criminal justice professionals have argued that dwindling prison space should be reserved for the most serious and dangerous offenders, necessitating a reconsideration of alternative sanctions for first-time and nonviolent offenders. This paper analyzes alternative sentences for federal offenders and, specifically, United States citizens sentenced under various types of alternatives. This analysis describes current federal sentencing policy governing alternative sentences and examines offenders with alternative sentences using the United States Sentencing Commission's data. An analysis of factors associated with alternative sentences imposed for eligible offenders provides insight into considerations made by federal sentencing courts in determining whether to impose alternatives.
