Gabbard's Treatments of Psychiatric Disorders Glen O. Gabbard, 2014-05-05 The definitive treatment textbook in psychiatry, this fifth edition of Gabbard's Treatments of Psychiatric Disorders has been thoroughly restructured to reflect the new DSM-5® categories, preserving its value as a state-of-the-art resource and increasing its utility in the field. The editors have produced a volume that is both comprehensive and concise, meeting the needs of clinicians who prefer a single, user-friendly volume. In the service of brevity, the book focuses on treatment over diagnostic considerations, and addresses both empirically-validated treatments and accumulated clinical wisdom where research is lacking. Noteworthy features include the following: Content is organized according to DSM-5® categories to make for rapid retrieval of relevant treatment information for the busy clinician. Outcome studies and expert opinion are presented in an accessible way to help the clinician know what treatment to use for which disorder, and how to tailor the treatment to the patient. Content is restricted to the major psychiatric conditions seen in clinical practice while leaving out less common conditions and those that have limited outcome research related to the disorder, resulting in a more streamlined and affordable text. Chapters are meticulously referenced and include dozens of tables, figures, and other illustrative features that enhance comprehension and recall. An authoritative resource for psychiatrists, psychologists, and psychiatric nurses, and an outstanding reference for students in the mental health professions, Gabbard's Treatments of Psychiatric Disorders, Fifth Edition, will prove indispensable to clinicians seeking to provide excellent care while transitioning to a DSM-5® world.

The Borrower Rebecca Makkai, 2011-06-09 In this delightful, funny, and moving first novel, a librarian and a young boy obsessed with reading take to the road. Lucy Hull, a young children's librarian in Hannibal, Missouri, finds herself both a kidnapper and kidnapped when her favorite patron, ten-year-old Ian Drake, runs away from home. The precocious Ian is

addicted to reading, but needs Lucy's help to smuggle books past his overbearing mother, who has enrolled Ian in weekly antigay classes with celebrity Pastor Bob. Lucy stumbles into a moral dilemma when she finds Ian camped out in the library after hours with a knapsack of provisions and an escape plan. Desperate to save him from Pastor Bob and the Drakes, Lucy allows herself to be hijacked by Ian. The odd pair embarks on a crazy road trip from Missouri to Vermont, with ferrets, an inconvenient boyfriend, and upsetting family history thrown in their path. But is it just Ian who is running away? Who is the man who seems to be on their tail? And should Lucy be trying to save a boy from his own parents?

The Mindset Lists of American History Tom McBride, Ron Nief, 2011-05-25 Snapshots of the U.S.'s last nine generations—from the creators of the Mindset List media sensation Just as high school graduates in 1957 couldn't imagine life without zippers, those of 2009 can't imagine having to enter phone booths and deposit coins in order to call someone from the street corner. Every August, the Mindset List highlights the cultural touchstones that have shaped the lives of that year's incoming college class. Now this fascinating book extends the Mindset List approach to dramatize what it was like to grow up for every American generation since 1880, showcasing the remarkable changes in what Americans have considered normal about the world around them. Expands Tom McBride and Ron Nief's popular annual Mindset Lists to explore the mindset of nine generations of Americans, from 1880 to the future high school graduates of 2030 Offers a novel and absorbing way to understand the frame of reference of Americans through history, whether it's the high school grads of 1918, who viewed riding an elevator as a thrill second only to roller coasters, or those of 2009, who have always thought of friend as an active verb Puts a human face on the evolution of historical changes related to technology, the struggle for rights and equality, the calamities of war and depression, and other areas The annual Mindset List garners extensive media attention, including on Today, The Early Show, the NBC Nightly News, CNN, and Fox as well as in the Wall Street Journal, the New York Times, USA Today, the Los Angeles Times, Time magazine, and hundreds of international publications Whatever your own generational mindset, this book will give you an entertaining and important new tool for understanding the unique perspective and experience of Americans over more than a hundred and fifty years.

Life and Death in Rikers Island Homer Venters, 2019-02-19 Shining a light on the deadly health consequences of incarceration. Finalist in the PROSE Award for Best Book in Anthropology, Criminology, and Sociology by the Association of American Publishers Kalief Browder was 16 when he was arrested in the Bronx for allegedly stealing a backpack. Unable to raise bail and unwilling to plead guilty to a crime he didn't commit, Browder spent three years in New York's infamous Rikers Island jail—two in solitary confinement—while awaiting trial. After his case was dismissed in 2013, Browder returned to his family, haunted by his ordeal. Suffering through the lonely hell of solitary, Browder had been violently attacked by fellow prisoners and corrections officers throughout his incarceration. Consumed with depression, Browder committed suicide in 2015. He was just 22 years old. In *Life and Death in Rikers Island*, Homer Venters, the former chief medical officer for New

York City's jails, explains the profound health risks associated with incarceration. From neglect and sexual abuse to blocked access to care and exposure to brutality, Venters details how jails are designed and run to create new health risks for prisoners—all while forcing doctors and nurses into complicity or silence. Pairing prisoner experiences with cutting-edge research into prison risk, Venters reveals the disproportionate extent to which the health risks of jail are meted out to those with behavioral health problems and people of color. He also presents compelling data on alternative strategies that can reduce health risks. This revelatory and groundbreaking book concludes with the author's analysis of the case for closing Rikers Island jails and his advice on how to do it for the good of the incarcerated.

It's Not Regular Jahmal Cole, 2019-08 How many times must you order food through bulletproof glass windows before yelling your order becomes a routine habit? How many times must a student find no soap, paper towels, or toilet paper in the school bathroom before learning in filth becomes regular? Social injustices such as these that pollute our communities are hidden in plain sight. And their enduring effects are pervasive and seemingly intractable. How did it get this way? Author and activist Jahmal Cole believes they were created intentionally and have led to disengaged minds. Instead of giving in, he calls for Chicagoans to wake up, confront oppression, and reject it as the new normal.

Imperfect Union Christopher R. Berry, 2009-09-14 Special purpose jurisdictions, such as school districts, water districts, and transit authorities, constitute the most common form of local government in the United States today. This book offers the first political theory of special purpose jurisdictions and provides extensive empirical analyses of the politics and finances of these often overlooked but increasingly influential governments.

Architects of Buddhist Leisure Justin Thomas McDaniel, 2016-11-30 Buddhism, often described as an austere religion that condemns desire, promotes denial, and idealizes the contemplative life, actually has a thriving leisure culture in Asia. Creative religious improvisations designed by Buddhists have been produced both within and outside of monasteries across the region—in Nepal, Japan, Korea, Macau, Hong Kong, Singapore, Laos, Thailand, and Vietnam. Justin McDaniel looks at the growth of Asia's culture of Buddhist leisure—what he calls “socially disengaged Buddhism”—through a study of architects responsible for monuments, museums, amusement parks, and other sites. In conversation with noted theorists of material and visual culture and anthropologists of art, McDaniel argues that such sites highlight the importance of public, leisure, and spectacle culture from a Buddhist perspective and illustrate how “secular” and “religious,” “public” and “private,” are in many ways false binaries. Moreover, places like Lek Wiriyaphan's Sanctuary of Truth in Thailand, Suối Tiên Amusement Park in Saigon, and Shi Fa Zhao's multilevel museum/ritual space/tea house in Singapore reflect a growing Buddhist ecumenism built through repetitive affective encounters instead of didactic sermons and sectarian developments. They present different Buddhist traditions, images, and aesthetic expressions as united but not uniform, collected but not concise: Together they form a gathering, not a movement. Despite the ingenuity of lay and ordained visionaries like Wiriyaphan and Zhao and their

colleagues Kenzo Tange, Chan-soo Park, Tadao Ando, and others discussed in this book, creators of Buddhist leisure sites often face problems along the way. Parks and museums are complex adaptive systems that are changed and influenced by budgets, available materials, local and global economic conditions, and visitors. Architects must often compromise and settle at local optima, and no matter what they intend, their buildings will develop lives of their own. Provocative and theoretically innovative, *Architects of Buddhist Leisure* asks readers to question the very category of “religious” architecture. It challenges current methodological approaches in religious studies and speaks to a broad audience interested in modern art, architecture, religion, anthropology, and material culture.

The Guns at Last Light Rick Atkinson,2014-05-13 It is the twentieth century's unrivaled epic: at a staggering price, the United States and its allies liberated Europe and vanquished Hitler. In the first two volumes of his bestselling Liberation Trilogy, Rick Atkinson recounted how they fought through North Africa and Italy to the threshold of victory. Now he tells the most dramatic story of all--the titanic battle for Western Europe. D-Day marked the commencement of the European war's final campaign, and Atkinson's riveting account of that bold gamble sets the pace for the masterly narrative that follows. The brutal fight in Normandy, the liberation of Paris, the disaster that was Operation Market Garden, the horrific Battle of the Bulge, and finally the thrust to the heart of the Third Reich--all these historic events and more come alive with a wealth of new material and a mesmerizing cast of characters. With *The Guns at Last Light*, the stirring #1 New York Times bestseller and final volume of this monumental trilogy, Atkinson has produced the definitive chronicle of the war that unshackled a continent and preserved freedom in the West.
